Our Courses

Beginner

Welsh is a beautiful language and learning it can be a great experience. Our Beginner course is designed for those who are new to the language. It covers the basics of grammar, vocabulary, and pronunciation. You will learn how to introduce yourself, ask and answer simple questions, and understand basic Welsh phrases. The course is taught in a fun and interactive way, with plenty of practice opportunities.

Intermediate

Our Intermediate course is for those who have completed the Beginner course or have some prior knowledge of Welsh. It builds on the basics and introduces more complex grammar and vocabulary. You will learn how to describe things and people in more detail, understand more complex sentences, and be able to hold a simple conversation. The course includes listening and speaking exercises to help you improve your fluency.

Advanced

Our Advanced course is for those who have completed the Intermediate course or have a good understanding of Welsh. It focuses on advanced grammar, vocabulary, and idiomatic expressions. You will learn how to understand and use more complex sentence structures, improve your reading and writing skills, and be able to engage in more detailed conversations. The course also includes cultural context and historical background to help you understand the language better.
